

'Looking to the Future of Korean Comics'

Korean cultural center(LA) WILL HOLD GLOBAL CARTOON EXHIBITION with KOKKOS.

Korean cultural center(LA) is going to hold global cartoon exhibition under the theme 'Looking to the Future of Korean Comics' with Korean cartoon contents company KOKKOS. It suggests the future of new world will come with audible and sensible cartoons from seeable ones.

<The image of future area of Global Cartoon exhibition & koktoon>

Unlike other cartoon exhibit convention, it will show the past, present and future of Korean Cartoon history. Especially, at the most important part, future area of this exhibition, visitors can watch 'Audio Cartoon'/'Motion Cartoon*' which are digital comics (e-comics) with audible and sensible effects and those are able to be seen all smart devices including smart phone, Smart pad and PC. It will also be reborn to original musical 'Great Country(daeguk)' based on cartoon books of same name. Visitors can see all creative/converged cartoon contents at the exhibition. It will be a good opportunity to promote Korean cartoon culture even including famous cartoonist & their comics. This global cartoon exhibition will be held until 11th of March from 26th of February 26.

* Audio Cartoon/'Motion Cartoon – New cartoon contents which provide end users more lively and More interesting cartoon contents with audible and sensible effects.
